RE: Price increase for 2009

To our valued customer,

We are beginning to see corrections in the material costs that affected so many foundries, including Robar, during the past year. Metal prices have begun to correct but are not back to where they were at the beginning of '08.

Therefore, we are implementing a price increase on selected Robar products effective March 15, 2009. **We will be removing our material surcharge and discounts will revert back to our standard discount structure when the new price increase goes into effect.**

The price increase covers the following Robar products:

		2009 PRICE INCREASE
COUPLINGS	1406/1406R, 1506/1506R, 1508/1508R, 1507/1507R, 1519/1519R	8%
	1408/1408R	10%
	3800	25%
	1700	15%
SERVICE SADDLES	2408, 2508	10%
	2406, 2506	5%
	2600	3%
	3600	3%
REPAIR CLAMPS	5600	3%
TAPPING SLEEVES	6600	3%
	6400/6500 6800/ 6900	8%
FCA's	7400/7500	8%
PIPE INSERTS	9626	3%

A hard copy of the new price list will be mailed out at the beginning of February and an electronic copy will be available on our website March 15, 2009. Once again, thank you for your support. We look forward to continue serving you and your customers through our service, quality and commitment to our relationship.

Sincerely,

Dave Brewer
