ANNOUNCEMENT

ROBAR INDUSTRIES LTD. & AYOTTE ENTERPRISES INC. (LES ENTREPRISES ALEX AYOTTE)

Robar Industries is pleased to announce that we have acquired the Ayotte Enterprises line of products. Along with acquiring the Ayotte line, we are also very excited that Jean Ayotte will be joining the Robar team as a consultant to mentor our Production and Engineering departments in all facets of the Ayotte offerings.

Jean Ayotte has continued, and grown, a legacy started by his father back in 1975 and Robar is committed to continuing that legacy here within our own family-owned business. Those that know Jean know him to be a hard-working, dedicated, and genuine man and we are lucky to be able to bring him into our family.

Ayotte Enterprises is a leader in Canada not only in the Concrete Pressure Pipe and Line Stop fittings market but also in superior customer service, commitment to product quality and after sales support. We promise that those traditions will continue here at Robar.

We would like to welcome Jean and his loyal client base to Robar and we look forward to continuing to grow together.

Sincerely,

Jackie Levy
